Come to a Question and Answer event with an expert panel on the re-introduction of **fluoride chemicals** into West Cumbria's water supply

Thursday 14 March 2024, 7-9pm

The Kirkgate Centre, Cockermouth

FREE ENTRY

Questions you might like answered

Why is fluoride being added to my water when most countries only allow its use in toothpaste?

Why are we advised that baby formula should not be made up with fluoridated water? Will it lower my child's IQ?

Proposed new Fluoridation schemes are assured a consultation. Why have 160,000 West Cumbrians never been consulted?

The impact of fluoride on my health depends on my daily dose from all sources including food, tea, showering, water, medication, toothpaste etc . How can I find out how much I absorb and store in my body each day?

Approximately 55 Kilos of hexafluorosilic acid (fluoride chemicals) are added to the local water supply daily. Where do the chemicals come from and where do they end up?

Has there ever been a national discussion about using a chemical for medication through the public water supply?

Panel includes

- John Lewis BDS Sheffield. Chair of Local Dental Committee
- Joy Warren, BSc. (Hons) Env. Science; Cert. Nutrition & Health National Coordinator, Fluoride Free Alliance UK
 - David Forrest CEng (retired) - scientific data analyst
 - Dr Ray Lowry, British Fluoridation Society

United Utilities have declined our invitation to attend
